

Rolling Road Day Instructions and Disclaimer

Please read the following, and sign at the bottom to say you have read and understand. Your car will NOT be allowed onto the site without the driver having a signed form. This is regardless of whether you are running on the Rolling Road or not.

I'm afraid our landlord is having serious problems with local residents blaming the site for noise issues, it's generally not the site, or SRR fault, but we get blamed for it anyway. Due to this, it is extremely important that you read the following and take it in! I cannot understate the importance of this!

- 1) The main road (CHOBHAM LANE) you use to enter the site is used by bikers, we get blamed for the noise, Please Please do not race up and down it, It's a public road, but our landlords and us get the blame for the noise it creates. When you leave our Site, please keep the noise down for at least a mile or so.
- 2) Please stick to 10 mph on the site, people walking around, noise again etc
- 3) Be polite to the Security Guards, at least wave at them without the middle finger raised.
- 4) The Car parks, these are for parking cars, not doing donuts, it leaves evidence and there is CCTV. Someone was killed on the site a couple of years ago in a car, so you can understand the sensitivity surrounding this.
- 5) We are lucky to have the premises we have (well, maybe not the loo, but that's in hand). The Landlord will kick us out if we cause them trouble. I'm afraid in exchange for letting us continue to do Rolling Road days the landlords have asked we do this form. This is due to the fact that despite being asked not to, a car with a screamer pipe raced up and down the road outside and straight past the Site manager!

Thanks for reading, have a nice day at SRR.

Charlie
SRR

I have read these instructions and will abide by them, I understand that if I do not I will be removed from site and banned permanently from Longcross Studios and SRR.

Date.....

Car Reg.....
